

Gyanendra Aryal

Full Stack MERN Developer · Backend Engineering & REST APIs

aryalgyanendra8@gmail.com · +977-9748810610 · [LinkedIn](#) · [GitHub](#)

SUMMARY

Backend-oriented MERN developer pursuing BCA at Tribhuvan University, specializing in Node.js/Express API design, MongoDB schema architecture, and secure authentication systems. Built and deployed client-facing e-commerce platforms with payment gateway integration and role-based access control. Seeking opportunities to contribute to established development teams with clean, maintainable code.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3.
- **Frameworks & Libraries:** React, Node.js, Express.js, Tailwind CSS, Redux Toolkit.
- **Databases:** MongoDB, Mongoose ODM.
- **Tools & Platforms:** Git, GitHub, Docker, Postman, VS Code.
- **Auth & APIs:** JWT Authentication, REST API Design, eSewa/Khalti Payment Integration.

KEY PROJECTS

EyeExpress — Eyewear E-Commerce Platform

2024 – Present

MERN Stack · React, Node.js, Express, MongoDB, Redux Toolkit, Tailwind CSS

- Built a full-stack eyewear e-commerce application with a customer-facing storefront and a separate React admin panel.
- Integrated Redux Toolkit for auth flows, dynamic navbar with hover dropdowns, and category-based product pages.
- Designed admin panel with status badges, skeleton loaders, Recharts dashboards, and eSewa payment configuration.
- Pitched the platform to a real optical business client in Butwal, preparing sales materials and a live homepage mockup.

CashYourPhone — Used Phone Marketplace

2024

MERN Stack · React, Node.js, Express, MongoDB, Cloudinary, eSewa ePay V2

- Developed a full-stack marketplace for used phones with condition-based filtering and product listing.
- Implemented eSewa ePay V2 payment integration with HMAC-SHA256 signature generation and server-side verification.
- Built role-based access control with secure JWT authentication and Cloudinary-based image hosting.
- Managed structured 50-commit GitHub history and end-to-end codebase with a clean REST API architecture.

AirPlus — Travel & Trekking Platform

2024

MERN Stack · React, Node.js, Express, MongoDB

- Built a responsive travel and trekking platform featuring an admin dashboard for managing bookings and inquiries.
- Designed REST APIs with JWT-based authentication and modular MongoDB schema architecture.

EDUCATION

- **Bachelor of Computer Applications (BCA):** Bhairahawa Multiple Campus, Tribhuvan University — Bhairahawa, Nepal Currently Pursuing
- **+2 ISC (AG):** Shree Nawaratna Secondary School — Butwal, Nepal GPA: 3.26
